ABOUT ME

I am a highly motivated person with a strong desire for self-improvement and continuous learning. Programming is my number one passion fuelled by a great interest in technology and innovation followed by an agile mindset and „can-do" attitude.

My architectural background has given me a high level of proficiency in composition and design, aswell as methodical and critical thinking, and being customer satisfaction oriented.

EXPERIENCE

JUNIOR FRONT-END DEVELOPER   8 mo.
The Odin Project Course

• I gained a foundation in HTML and CSS, including essential concepts such as semantic markup, responsive design, and the box model.
• I gained a foundation in JavaScript (ES6).
• I gained knowledge in basic syntax and data types, control structures and functions, DOM manipulation, Asynchronous programming.
• I gained knowledge in object-oriented programming principles and built various single-page applications.
• Web development tools I used on every project: Git, GitHub, npm.
• Used React for more complex projects, and created re-usable components.

ARCHITECT   1 yr.
UAB "Aplan"

• Worked on complex and large-scale projects (individually or with a team).
• Worked within tight deadlines on several projects at once (that made my organizational and time management skills even better).

INTERN ARCHITECT   6 mo.
TADO BALČIŪNO ARCHITECTURE STUDIO

• Learned effective communication and collaboration in a team-driven environment.
• Worked with Photoshop while creating visually appealing designs, prototypes, layouts, and compositions.
